

## **Autism and Developmental Language Impairments (ADLI) – a SAGE Publication**

Special Issue Call for Papers:

### **Gesture Development and Use in Individuals with Autism and Developmental Language Impairments**

The purpose of this special issue is to feature both basic and applied research related to gesture development and use in individuals with autism spectrum disorder (ASD) and developmental language impairments. This special issue will provide an international forum for researchers to present new scientific findings and methodological advances in this area. We welcome basic and applied research on the issue of gesture development, and encourage papers covering one or more of the following topics:

- Descriptions of gesture development (both production and comprehension);
- Coordination of gesture and verbal language;
- Intervention targeting gesture use and comprehension

This is not an exhaustive list of possible content, and all content related to gesture development in individuals with ASD and developmental language impairments will be considered. Information about the journal and guidelines for authors can be found at: [adli.sagepub.com](http://adli.sagepub.com)

If you would like a paper to be considered for this special issue, please submit your manuscript on the journal's online portal: <https://mc.manuscriptcentral.com/adli>, no later than **1<sup>st</sup> June 2016**.

Author guidelines, and details of the journal's aims and mission can be found at: [adli.sagepub.com](http://adli.sagepub.com).

Any queries about papers for this special issue can be directed to Allison Bean Ellawadi, [ellawadi.1@osu.edu](mailto:ellawadi.1@osu.edu)
