

# SAGE Author Sharing Guidelines

SAGE Journal authors are able to re-use their Contribution in many circumstances without requiring permission from SAGE. It is important to check your signed Contributor Agreement and/or the submission guidelines for the journal to which you submitted your Contribution to review the journal's policy regarding author re-use.

## Green Open Access Policy

Most SAGE journals are published under SAGE's Green Open Access policy, which allows you, as author, to re-use your Contribution as indicated below.

The chart below includes common requests and an explanation of which 'version' of the article can be used in each circumstance. If the table below indicates that permission is required, please see the instructions for requesting permission at **Journals Permissions**.

	I WANT TO	CLEARED PERMISSION	REQUIRES PERMISSION
<b>On a Website</b> 	upload my article to my institution repository or department website	Accepted Version	
	upload my article to a repository NOT affiliated with my institution	Original Submission	
	upload my article to a repository NOT affiliated with my institution, 12 months after publication	Accepted Version	
<b>In Education</b> 	include up to one full article in my unpublished dissertation or thesis	Final, Published Version	
	supply my article to my students or use the article for teaching purposes	Final, Published Version	
<b>With other Organisations</b> 	supply my article to a research colleague at an academic institution	Final, Published Version	
	supply my article to a commercial organization for republication, distribution or a web posting	–	Yes
<b>In a Book</b> 	republish my article in a book I am writing or editing	Final, Published Version	
	contribute my article to a book edited or written by someone else	–	Yes

VERSION OF CONTRIBUTION	DEFINITION
Original Submission	the version submitted by the author before peer review
Accepted Version	original submission to the journal with author revisions after peer review, often the version accepted by the editor (author accepted manuscript)
Final, Published Version	copy-edited and typeset proofs and the final published version

## Author Copies

If you are the corresponding author you will receive an e-print of your Contribution. Please see our **Author e-prints policy** for more information.

It is not SAGE's policy to provide PDFs of the published Contribution (final, published version) for posting on servers or depositing in institutional repositories.

However, you may update your own version of the article (author's original version or accepted version) to reflect substantive changes to the content made during production and convert that article into PDF form.

## Permissions Clearance

For advice on how to clear permission for material contained within a Contribution you intend to submit for publication in a SAGE Journal, please visit our Author Gateway **Copyright and Permissions FAQs**.

## Gold Open Access and SAGE Choice

If you wish to re-use an Open Access Contribution published under a Creative Commons License, please see **Re-use of Open Access Content** for more information.

## Green Open Access: SAGE's archiving policy

Most SAGE journals are published under SAGE's Green Open Access policy, which allows you, as author, to re-use your Contribution as indicated below. See below for a list of exceptions to this policy.

### Green Open Access policy:

- You may share the version of the Contribution you submitted to the journal (author's original version) anywhere at any time.
- Once the Contribution has been accepted for publication, you may post the accepted version of the Contribution on your own personal website, your department's website or the repository of your institution without any restrictions.
- Twelve (12) months after the date of initial publication, you may arrange for the accepted version of the Contribution to be made publicly available in any repository or database in addition to those listed above (e.g. the repository of another institution, a subject repository or another database). Where a repository or database enables depositing of a manuscript with the ability to delay its public availability, you may deposit the manuscript at any time after acceptance with the condition that the manuscript is not made publicly available until 12 months after its publication in the journal.
- You may use the final, published Contribution for your own teaching needs or to supply on an individual basis to research colleagues, provided that such supply is not for commercial purposes.

- You may use the final, published Contribution in a book authored or edited by you at any time after publication in the journal. This does not apply to books where you are contributing a chapter to a book authored or edited by someone else.
- You may not post the final, published on a website or in a repository without permission from SAGE.

When posting or reusing your Contribution under this policy, appropriate credit must be given to the SAGE journal where the Contribution has been published, as the original source of the content, as follows: **Author(s), Article Title, Journal Title (Journal Volume Number and Issue Number) pp. xx-xx. Copyright © [year] (Copyright Holder). Reprinted by permission of SAGE Publications**. Additionally, please provide a link to the appropriate DOI for the published version of the Contribution on the SAGE Journals website ([journals.sagepub.com](http://journals.sagepub.com)).
