Welcome...

We’re very pleased to welcome you to our 2017 Criminology & Criminal Justice catalogue, and to our new and bestselling titles.

We’re really proud of the breadth and depth of our list and that, through our textbooks, reference works, journals and library packages, we’ve got products and solutions to support students, lecturers and researchers at every stage of their academic career.

2017 sees the addition of some exciting new textbooks to this offering, covering areas ranging from gangs to gender, from research to racism, and from policing to prostitution.

We couldn’t fit everything in this catalogue, of course, so make sure you take a look at what more we have to offer on our website at uk.sagepub.com/criminology-criminal-justice, as well as following @SAGEcriminology on Twitter.

Happy browsing!

The SAGE Criminology team

P.S. 2017 also sees the launch of our Criminology and Criminal Justice video collection. Featuring over 120 hours of video, including In Practice videos, tutorial videos and case study videos, and with footage including police using technology, forensic scientists analyzing evidence, and defence lawyers working with clients, the collection will really help students to understand the application of what they are learning about. AN INTRODUCTION TO CRIMINAL JUSTICE

Edited by Jamie Harding, Pamela Davies both at Northumbria University and George Mair Liverpool Hope University

Refreshing in its outlook, with a mixture of up-and-coming scholars as well as established authors as contributors, timelines to show rapid developments over the past thirty years in particular, and a unique combination of critical reflections on legal, policy, practice and theoretical developments. [It also includes] case studies, annotated reading suggestions, discussion points and exercises to guide readers. Key developments are described in their socio-political context, all of which adds to a book which is compelling in scope and persuasive in argument

- Loraine Gelsthorpe, University of Cambridge

A contemporary guide to the criminal justice process, the broad scope of this book means it will be a trusted companion throughout a criminology and/or criminal justice degree.

The contents include:

- 23 chapters spanning all that’s involved with, and fully contextualizing, the criminal justice process: the agencies, institutions and processes and procedures that deal with victims, offenders and offending
- a detailed timeline of criminal justice since 1945
- consideration of victims and witnesses, complaints and misconduct
- a comprehensive review of policing, prosecution, the courts, imprisonment and community sanctions
- a focus on community safety, crime prevention and youth justice
- a review of the effectiveness of the criminal justice process
- exploration of global and international dimensions as well as the futures of criminal justice
- lots of helpful extras including further reading suggestions, case studies, self-study questions and a glossary of terms.

The accompanying website has:

- a podcast interview with a police officer
- practice essay questions
- multiple choice questions
- suggested website resources to explore
- videos.

What’s the main thing you hope readers will get from your book?
A basic, clear and comprehensive understanding of the criminal justice process and the key debates that surround it; key debates that include the nature of social inequality and the purposes of criminal justice.

What are you most proud of about your book?
The range of contributors from senior professors to early career researchers. An impressive timeline that reflects an understanding of criminal justice in its historical context as well as a broader social context.

How do you see the field of criminal justice changing over the next few years?
Impossible to say, but given that it has been becoming increasingly more punitive for at least the last 20 years, it is difficult to see how this trend might be reversed (or even just halted).

What top tips would you give to students new to the study of criminal justice?
Read widely, think constructively and critically, never be afraid to ask questions and keep up to date with government initiatives.
INTRODUCTION TO CRIMINOLOGY

Theories, Methods, and Criminal Behavior

Ninth Edition

Frank E Hagan Mercyhurst College

Focusing on the vital core of criminological theory - theory, method and criminal behaviour - with more attention to crime typologies than most introductory texts, this book investigates all forms of criminal activity, such as organized crime, white collar crime, political crime and environmental crime. The methods of operation, the effects on society and policy decisions, and the connection between theory and criminal behaviour are all explained in a clear, accessible manner.

This Ninth Edition has updated coverage of terrorism and counter-terrorism efforts, as well as new coverage of emerging criminological methods, such as ethnographies. All statistics, tables and figures have been updated, as have the photographs, supplements, and audio and video packages in the new edition to make the material most relevant for courses.

CRIMINOLOGY

The Essentials

Second Edition

James Treadwell Birmingham City University

Criminology recruits undergraduate students from all sorts of backgrounds. As they enter their first year they confront a dauntingly complex and diverse discipline. Therefore, a no-nonsense basic primer is an essential survival tool. For me, Treadwell’s book, which covers everything from underlying philosophical principles to exam tips, is the most comprehensive and accessible basic primer on the market.

DOING CRIMINOLOGICAL RESEARCH

Third Edition

Pamela Davies and Peter Francis both at Northumbria University

The new edition of this bestselling textbook comes completely revised and updated to take students on a guided tour of criminological research. As a trusted companion, this book brings together a range of experts in the field to provide key perspectives on how to prepare, do and present research. Concise and engaging, each chapter comes with a range of learning features and contextualized case studies, giving an in-depth review on conducting research projects. The book:

- includes fascinating case studies on transnational crime and policing, victims, male offenders, institutional abuse and more
- comes with study questions, activities, key terms and a glossary
- includes visual material which highlights and illustrates key points
- contains new chapters on mixed methods; web based criminological research; experimental criminological research and quantitative criminological research.

This is the go-to for any student studying criminology, essential to those conducting their own research in the field.

CRIMINOLOGICAL ETHNOGRAPHY: AN INTRODUCTION

James Treadwell Birmingham City University and
Stephen Wakeman Liverpool John Moores University

Featuring a range of fascinating and thought-provoking case studies from the authors’ extensive experience in the field, this is the first textbook to cover ethnography specific to criminology. Following the research process in full, this book successfully bridges the gap between a methodological instruction manual and a theoretical textbook. It:

• includes case studies comprised of classic works and the authors’ own ethnographic projects
• provides guidance for navigating key issues in ethnography, including access and researcher safety
• helps with the use of ethnographic methods with exercises, questions and checklists
• features a range of extra learning features including key terms, a glossary, and further reading suggestions.

This book is a valuable resource for any student embarking on ethnographic research in criminology for the first time.

CONTENTS

Part I: Criminological Ethnography: Key Concepts and Theoretical Frameworks / Why Criminological Ethnography? / Early Criminological Ethnography / Core Ethnographic Principles and Approaches / Part II: Doing Criminological Ethnography / Planning an Ethnographic Project / Doing Ethnographic Criminology / Doing Ethical Criminological Ethnography / Part III: Writing Criminological Ethnography / Entering the Field / In the Field / Writing and Recording in the Field / Part IV: Evaluating and Presenting Criminological Ethnography / Writing up Criminological Ethnography / Impactful Criminological Ethnography / Emerging Perspectives and Future Challenges

60 SECONDS WITH THE AUTHORS

What top tips would you give to students new to the study of criminological ethnography?

Firstly, read the book. But then, practice being ethnographic everywhere you can. Practice on the train, at work, at that wedding you’ve got coming up, when you’re out walking your dog, everywhere you go. Just practice the basic ethnographic methods of watching and listening. We’re too quick to ask questions in criminology; the best advice we could give the newcomer is to stop, slow things down, and just observe. It’s amazing how much there is to see and learn if we just watch and listen. This is especially true where crime, deviance and the agencies of their control are concerned.

What are you most proud of about your book?

There’s a lot here that we’re proud of. Obviously the first thing is the novelty of the book – there’s a lot of texts out there on ethnographic methods, but ours is the first specifically targeted at doing ethnography in criminological contexts. But also, we’re proud of the authenticity of the book; it basically grew out of a conversation we had on a train a few years ago on the way home from a conference. We’re really proud of the way the whole thing has just evolved out of our shared passion for this type of research.
STATISTICS FOR CRIMINOLOGY AND CRIMINAL JUSTICE

Fourth Edition

Ronet D Bachman University of Delaware and Raymond Paternoster University of Maryland

Offering students a practical introduction to statistics and highlighting the integral role research and statistics play in the study of criminology and criminal justice, this text is packed with real-world case studies and contemporary examples using the most current crime data and empirical research available. Students not only learn how to perform and understand statistical analyses, but also to recognize the connection between the use of statistical analyses in everyday life and its importance to criminology and criminal justice.

The book continues to present statistical formulae with step-by-step instructions for calculation, avoiding complicated proofs and discussions of statistical theory, without sacrificing statistical rigor. The Fourth Edition has new examples exploring key issues in today’s world, motivating students to investigate research questions with statistics and conduct research of their own along the way.

THE PRACTICE OF RESEARCH IN CRIMINOLOGY AND CRIMINAL JUSTICE

Sixth Edition

Ronet D Bachman University of Delaware and Russell K Schutt University of Massachusetts Boston

Demonstrating the vital role research plays by integrating in-depth, real-world case studies with a comprehensive discussion of research methods, this book pairs research techniques with practical examples from the field to equip students to evaluate and conduct research. Covering research findings from critical areas in criminal justice, such as police use of force, cybercrime and race, this text helps students understand the importance of research, not just the process. The Sixth Edition includes emergent research methods, enhanced tools for learning in the text and online, as well as contemporary, fascinating research findings. Students engage with the wide realm of research methods available to them, delve deeper into topics relevant to their field of study, and benefit from the wide variety of new exercises that help them practice as they learn.

GANGS & CRIME
Alternative Perspectives

Alistair Fraser University of Glasgow

This book takes students on a guided tour of the gang phenomenon through history, as well as current representations of gangs in literature and media. It includes:

• a detailed global overview of gang culture covering, amongst others, Glasgow, Chicago, Hong Kong, and Shanghai
• a chapter on researching gangs which covers quantitative and qualitative methods
• extra chapter features such as key terms, chapter overviews, study questions and further reading suggestions.

Fraser brings together gang-literature and critical perspectives in a refreshingly new way, exploring 'gangs' as a social group with a long and fascinating history.

What’s the main thing you hope readers will get from your book?
The study of gangs comes with a lot of baggage. Myths and stereotypes from popular culture are mixed in with the voices of researchers, journalists and politicians – not to mention young people themselves – and the story that comes out is often partial and convoluted: gangs are criminal, pathological, and in need of a hard-line criminal justice response. What I hope readers get from the book is a critical alternative to this point of view, and the tools to interrogate popular stereotypes – showing gangs to be a social, cultural and global phenomenon that need to be understood in the context of wider society.

What are you most proud of about your book?
I’ve tried to distil both classical and contemporary work on gangs around the world in a way that hasn’t been done before, whilst also drawing on new theory and research to challenge the next generation. As well as covering important ideas such as defining, researching and conceptualizing gangs, there are new syntheses of feminist, cultural, and social harm approaches that try to take gang research somewhere new. Last but not least, there are several chapters that bring the study of gangs into the twenty-first century, with a focus on moving beyond the US and Europe as the sole sites of gang research.

Why do you feel the study of gangs is important?
Gangs are about as close to a universal social phenomenon as it gets. Groups of street-based young people, banding together for protection and resource, can be found across time and space. At the same time, their nature and form vary tremendously – from territorial violence to protection-rackets, political mobilization to drug sales – and this depends on issues such as culture, history, inequality and urban space. Yet gangs are also often vilified and criminalized, again in very different ways. So on one hand, studying gangs is a kind of way of understanding society in all its complexity – social order, social control and social inequality all rolled into one.

What top tips would you give to students new to the study of criminology?
Think beyond criminology. This book draws on a lot of theory and ideas that wouldn’t traditionally be thought of as criminology – especially sociology, but also anthropology, cultural studies and human geography – and for me it is this kind of dialogue that is most important to studying crime and criminology. In fact I think one of the problems with much gang research is that it thinks of ‘gangs’ and ‘crime’ relatively narrowly – I would encourage student to turn the kaleidoscope and see things differently.
Victimhood is never socially neutral. It involves powerful interests, diverse inequalities, and media representations that tend to privilege particular understandings of victims. This excellent text provides a critical interrogation of victimology by emphasizing context and interpretation, politics and social justice. It, too, is not socially neutral, and we are all the better for it.

- Rob White, Professor of Criminology, University of Tasmania, Australia

This book provides a thorough account of victimization across the social spectrum of class, race and ethnicity, age, gender, religion and sexuality. The Second Edition has been fully revised and expanded, with two parts now spanning the key perspectives and key issues in victimology.

Covering theoretical and methodological approaches, and social and political contexts, the book:

- includes new chapters on defining and constructing victims, fear and vulnerability, sexuality, white collar crime and the implications of crime policy on victims
- examines a global range of historical, theoretical and policy perspectives in victimology
- reinforces students’ learning through critical thinking sections, future research suggestions, chapter summaries and a glossary of key terms
- now includes a companion website, complete with links to relevant journal articles in victimology.

Race and Society

Tina Patel, University of Salford

Race and Society is a thoughtful and critically engaging exploration of some of the key issues around race and racialization, which have arisen in what is considered to be a highly diverse and complex society.

With a progressive approach emphasizing the social construction of race issues within a post-racial era, moving away from essentialist and polarized explanations of raced interaction, Tina Patel:

- introduces the main concepts and key theories, including their post-developments
- focuses on the processes and impact of racial categorization in contemporary society
- highlights the intersectional and multifaceted nature of race and related conceptualizations
- illustrates how race has morphed into newer forms of categorizations.

Race and Society is a highly readable and thought-provoking guide to the study of race and racialization processes for students of sociology, criminology and related disciplines. It is packed with topical examples and international case studies to engage students, along with chapter summaries, study questions and further reading.

MISOGYNY ONLINE
A Short (and Brutish) History
Emma A Jane University of New South Wales

A rigorous, necessary and at times terrifying exploration of one of the most pressing and rapidly growing forms of harassment and abuse of women and girls today. Dr Jane’s interrogation of the rhetoric of sexualized, gendered violence and the rise of multi-perpetrator attacks on individual women using digital technology is a must-read for a greater understanding of this phenomenon and its impact on democracy, culture and the individual

- Tara Moss, UNICEF National Ambassador for Child Survival, feminist commentator and human rights advocate

Misogyny Online explores the worldwide phenomenon of gendered cyberhate as a significant discourse which has been overlooked and marginalized. The rapid growth of the internet has led to numerous opportunities and benefits; however, the architecture of the cybersphere offers users unprecedented opportunities to engage in hate speech. A leading international researcher in this field, Emma A Jane weaves together data and theory from multiple disciplines and expresses her findings in a style that is engaging, witty and powerful. This book is an important read for students and faculty members alike across the social sciences and humanities.

AN INTRODUCTION TO NON-TRADITIONAL SECURITY STUDIES
A Transnational Approach
Edited by Mely Caballero-Anthony Nanyang Technological University

This book is a refreshing antidote to the marginalization of NTS with an in-depth analysis of the concept itself plus empirical assessments and case studies of NTS in nine different substantive areas. The result is a rich and rewarding exposure of an area too readily kept in the shadows

MAD OR BAD?: A CRITICAL APPROACH TO COUNSELLING AND FORENSIC PSYCHOLOGY

Edited by Andreas Vossler, Catriona Havard, Graham Pike, Meg-John Barker and Bianca Raabe all at The Open University

‘Mad’ is a casual term from psychiatric discourse often used in a pejorative manner for mental health problems, whereas ‘bad’ refers to the law and values inherent to the legal and criminal justice system. Examining the overlap between counselling and forensic psychology, as well as their differences, this book aims to develop a critical understanding of the themes and issues related to crime and therapy that are highly relevant for theory and practice.

CONTENTS
Part I: Mad or Bad? - Setting the Scene / Therapeutic Work in Forensic Settings / Historical Overview / Media Representations / Diagnosis and Categorization / Part II: Mad/Bad Identities / Race / Gender / Age / Class / Part III: Sex and Sexuality in Mental Health and Crime / Sexual Assault and Abuse / Sex in the Therapy Room / ‘Paraphilias’ / Sex Work / Part IV: Treatment / Attachment-Based Approaches / CBT / Systemic Approaches / Mindfulness / Part V: Dichotomies in Forensic and Therapeutic Practice / Memory / Self-harm and Suicide / Contexts / Prevention
