Table of Economies by Category*

Category A: High income
Category B: Upper middle income
Category C: Low and lower middle income

*As RC 27 of the ISA, ISSA uses the Table of Economies by Category of the ISA. The table can be found here: <https://www.isa-sociology.org/en/membership/table-of-economies-by-category>. The information is drawn from The World Bank. For operational and analytical purposes, the World Bank's main criterion for classifying economies is gross national income (GNI) per capita. This classification does not necessarily reflect development status. The World Bank, October 2019, www.worldbank.org.

CATEGORY A
