Teach and learn collaboratively, with our premium social science textbooks fully loaded onto an interactive platform.

Watch how virtual collaboration, classroom discussion, and peer-to-peer learning transform both the teaching and learning experience.

1. Give students easy access to core textbooks
2. Bring discussion into course content
3. Gain insight to fine-tune teaching

sagelearningresources.com/catalyst
Sage Catalyst provides unlimited, university-wide access to more than 750 premium social science e-textbooks with full curriculum coverage and brings discussion directly into the content.

The platform is designed to meet the demands of the hybrid classroom whilst increasing student engagement and giving important insights into student behaviours.

**Advantages of using Sage Catalyst**

- Provide equitable online access to premium Sage textbooks, removing barriers to learning
- Ensure full social science curriculum coverage, giving students what they need
- Curate learning materials in just one place for a consistent and easy to use experience
- Increase student engagement and satisfaction as resources are brought to life through collaboration
- Co-create knowledge by bringing conversation into course content so students learn from each other
- Shape course design and delivery using usage and engagement insights at student, resource, and class level
How it works

Find out how virtual collaboration, classroom discussion, and peer-to-peer learning transform both the teaching and learning experience.

**Unlimited university-wide access to over 750 Social Science e-textbooks**
Instructors can curate reading lists from Sage chapters that all their students can access.

**Creates an active online classroom community**
Regardless of location, an active student community is built around your course content.

**Integrates with your VLE**
Embedding chapters or modules directly into your VLE couldn’t be easier. Alternatively, share via a link for easy student access.

**Collaborate through social annotation**
Instructors and students can add comments directly within the text, encouraging discussion and collaboration both in and out of the classroom.

**Anonymous comments and private notes**
Less confident students can still participate and gain a voice through anonymous commenting, whilst private notetaking promotes independent study.

**Upload other resources**
Instructors can upload a range of resources from lecture notes and recordings to YouTube videos and images to create custom course packs.

**Easy-to-read analytics**
Engagement analytics offer insight into how reading list resources are being used, where help is needed for which student, and how to fine tune your teaching.
I love how Sage Catalyst links top Sage eBooks directly into Talis Elevate, making it really easy to get collaboration started
Liz Mallet – Assistant Director of Academic Engagement, University of Lincoln

It’s been a real advantage to me and the students. It improves access to the key resources you want students to read...and it helps you manage your course and ensure students actually enjoy textbook reading
Paul Hunter – Lecturer in the Adam Smith Business School, University of Glasgow

Being able to assign key readings through the platform for students to summarize and comment on outside of the classroom provides an extra layer of scaffolding to support learning... it has led to greater engagement
Dr Clare Cunningham – Senior Lecturer in the Department of Linguistics, York St John University
Our premium social science textbook collection

The collection includes more than 750 of Sage’s premium social science textbooks, in eTextbook format, curated to provide full and comprehensive coverage across the entire social science curriculum and the most widely taught courses. As a leading social science publisher, Sage textbooks are rich in pedagogy, internationally facing, and designed to engage students across all levels of the curriculum.

See the full title list at sagelearningresources.com/catalyst
Our add-on packages

In addition to the premium social science textbook collection, universities subscribing to Sage Catalyst can also pick and choose add-on packages with around 50 titles each.

With these add-on packages, faculty will have additional key resources to add to their teaching, empowering students to engage and gain more confidence.

**Study Skills**
Study skills are essential for students to succeed in their academic journey, which as a result, will prepare them for their professional life.

**Professional I & II**
These collections focus on supporting students when in practice settings and helping them develop their professional skills.

**Business and Management**
Business & Management textbooks empower students to shape the future of business and contribute to building a thriving global society.

**Research Methods**
Give your faculty and students access to more Research Methods textbooks for a deeper dive into specific methods.
