Welcome to our 2019 Sociology catalogue, featuring our newest and bestselling titles, expertly developed to support students, lecturers and researchers at every stage of their academic career.

Across textbooks, reference works, and journals, we aim to bring timely and authoritative resources to the academic community. The coverage of our textbook programme makes SAGE the perfect go-to when recommending texts to your students to inspire them to read deeply enough into, and widely enough around, your subject area. Discover new ideas and tools for your next project, syllabus, or library, from practical study guides and undergraduate course companions to critical researcher-oriented titles, covering an array of topics from childhood, culture and race studies to politics, welfare and social work.

We couldn't fit everything into this catalogue, so be sure to browse our complete collection online at uk.sagepub.com/sociology, where most of our titles are available as e-books, and a good many are available as an inspection copy if you're teaching a relevant course. You can also follow us on Twitter: @SAGEsociology

If you are interested in joining the list, as an author or editor, do get in touch with our Publisher, Natalie Aguilera, who will be happy to discuss any potential projects.

We wish you every success in your academic journey in 2019!

Key new titles
SOCIAL LIFE
Contemporary Social Theory
Matthias Benzer and Kate Reed, both at University of Sheffield

In Social Life, the authors highlight, explain, and scrutinize socio-theoretical analyses of contemporary social relations and conditions - put forward by eight modern social theorists - and analyse how these have informed sociological inquiries into people's lives in today's social world.

The book discusses the works of the following social theorists:
Anthony Giddens
Pierre Bourdieu
Bruno Latour
Donna Haraway
Zygmunt Bauman
Jean-Francois Lyotard
Michel Foucault
Jean Baudrillard

In each chapter, the authors identify the key components of each theorist's conception of society and apply the theories outlined to specific, modern phenomena. This connection with modern-day phenomena allows for a critical interrogation of issues in contemporary society, including: Inequality and Capital, Power, Fear and Terrorism, Immune System Discourse, Suffering, and Climate Change. This book is essential reading for all sociology students studying social theory and the works of modern social theorists.

60 SECONDS WITH MATTHIAS BENZER & KATE REED

How did you choose the eight social theorists for this book?
The sociological writings of each of these theorists contain distinct, multifaceted, and very sophisticated conceptions of social relations and conditions. From our perspective, each of those conceptions has much to contribute – and, in many respects, poses serious challenges – to sociology’s project of analysing and critically interrogating the social world of today.

What’s more, the eight oeuvres show how such conceptions can shape examinations of quite specific phenomena – phenomena which, in fact, many people will in one way or another be fairly familiar with. Finally, we have focused on analyses that allow for responses to the question how people live – the question of human life and living – in contemporary society.

What will a student learn from reading this book?
Readers of Social Life – especially students, perhaps – should not expect a textbook with overviews of eight socio-theoretical bodies of work. We have selected a narrower range of writings by each of the eight theorists in question for more sustained, detailed examinations. Our studies make close reference to these primary – including, in many cases, original language – sources. This has allowed us to highlight different modes of thinking about society and different ways of bringing such ideas to the analysis of particular components of social life.

What have you both learned from writing it?
Substantively, what we have learnt is reported in the book's chapters. One more overarching issue that has struck us was that in our reading, analyses, and writing, we were progressively de-prioritising the construction of criticisms of the eight works in question and placing increasing emphasis on spotlighting and unpacking the theorists' critiques of social life.

It seems at least justifiable to ask whether sociology’s political endeavours could be better served if sociologists concentrated less on criticising each other's work and aimed more of their critical attention at the social conditions in which we all have to live.
WELFARE WORDS:
Critical Social Work & Social Policy
Paul Michael Garrett NUI Galway

Welfare dependency, social inclusion/exclusion, underclass, anti-social behaviour, therapy, resilience, care and caring, adoption, neoliberalism, and social justice. Insightful and engaging, Welfare Words provides a critical analysis of social work and social policy in its articulation and discussion of a number of significant words and phrases. Written by an authoritative voice in the field, this book brings complex theories to the everyday experience, giving students and practitioners vital tools to better understand and change their social worlds. Lucid and accessible in style, Garrett offers an innovative approach to the study of social welfare, encouraging readers to think critically about the key issues in social work and social policy.

QUESTIONING PERFORMANCE MEASUREMENT: METRICS, ORGANIZATIONS AND POWER
Guy Redden The University of Sydney

Organizations, Society and Performance Culture is the first book to critically interrogate the organizational turn towards using metrics to measure performance. The book traces the rise of performance measurement, questions its objectivity, and examines the social and political effects of using numbers to evaluate a diverse range of activities throughout the private, public and non-governmental sectors.

DEVELOPMENT AND SOCIAL CHANGE

A Global Perspective

Seventh Edition

Philip McMichael Cornell University

Development and Social Change: A Global Perspective describes the dramatic acceleration of the global and political economy in a story that has four parts: colonialism, the development era, the current era of globalization, and global counter-movements for equity and sustainability. Author Philip McMichael helps students make sense of a complex world in transition and explains how globalization became part of public discourse. Filled with case studies, this text makes the intricacies of globalization concrete, meaningful, and clear for students. It encourages them to see global development as a contested historical project, not simply a story about inevitable "progress."
The author shows how development stems from unequal power relationships among nations, often with planet-threatening environmental outcomes. The book challenges students to see themselves as global citizens whose consumption decisions have real implications.

FROM BEING TO LIVING

François Jullien, Michael Richardson and Krzysztof Fijalkowski

This new English translation of François Jullien’s work is a compelling summation of his thinking on the comparison between Western and Chinese thought. The title, From Being to Living, summarises his essential point: that western thinking is obsessed by – and determined as well as limited by – the notion of Being, whereas traditional Chinese thought was always situated in Living.

Accessible Content

SAGE are always striving to improve our provision of accessible content to our visually impaired and print disabled customers and we are delighted to work with a wide variety of associations towards this end.

If you are seeking accessible content please contact us directly at accessible@sagepub.co.uk or through one of our partners and we will be happy to assist you.
Now in a fully updated third edition, *The Sociology of Work* draws on the work of classic and contemporary theorists, to provide readers with a thorough exploration of all aspects of work and employment, including paid and unpaid work, standard and non-standard employment, and even unemployment. The new edition includes:

- Two new chapters on “Work, Skill and the Labour Process” and “Managing Culture at Work”.
- Expanded coverage of the rise and decline of trade unions; emotional labour, misbehaviour, and resistance at work.
- Further discussion of the gig economy and precarious work; automation and the end of work; globalization and human rights.

Paper (9781526402646) • £29.99

---

**60 SECONDS WITH STEPHEN EDGELL & EDWARD GRANTER**

**How has the workplace changed in the years since your previous edition?**

There is a lot of continuity and many of the classic theories and analyses have stood the test of time; but of course there have been changes too. One thing we have seen is the rise of the ‘platform’ or ‘gig’ economy. Methods of controlling people in the workplace appear to be increasingly sophisticated, yet traditional bureaucratic and technical forms endure.

Globalization has continued to reshape the world of work, not always for the better. Perhaps reflecting some of these issues, there has recently been a return to prominence of debates around alienation, automation and the ‘end of work’.

**What do you hope readers will take away from your book?**

An interest in the sociology of work obviously, but also a broader sense that work and employment are an important part of our lives in contemporary society. In pedagogic terms, we wanted to ensure that the book is more relevant than ever to students and lecturers from across a number of disciplines. We have built careers teaching and researching in both sociology departments and business schools, and we really brought this cross-disciplinary knowledge to bear here.

**What did you learn from writing The Sociology of Work?**

We’ve had the opportunity not just to revisit topics but to introduce new ones, broadening our own scholarship in the process.

Perhaps most important is that work remains a vibrant and interesting area that should be central to studies in sociology, management, human resources, and beyond.
THE SAGE HANDBOOK OF POLITICAL SOCIOLOGY

Two-Volume Set

Edited by William Outhwaite University of Newcastle and Stephen Turner University of South Florida

A comprehensive handbook that attempts to cover the whole field of topics that a reader interested primarily in politics needs to understand, as well as providing essential conceptual and empirical background to the social study of politics.

2017 • 1260 pages
Cloth (9781473919464) • £265.00

THE SAGE HANDBOOK OF HUMAN TRAFFICKING AND MODERN DAY SLAVERY

Edited by Jennifer Bryson Clark, South Texas College and Sasha Poucki Azimuth180°

The SAGE Handbook of Human Trafficking and Modern Day Slavery provides a comprehensive, interdisciplinary and global look at the diverse issues surrounding human trafficking and slavery in the post-1945 environment.

December 2018 • 584 pages
Cloth (9781473978553) • £120.00

THE SAGE HANDBOOK OF INTERNATIONAL MIGRATION

Edited by Christine Inglis University of Sydney, Binod Khadria Jawaharlal Nehru University and Wei Li Arizona State University

The SAGE Handbook of International Migration provides an authoritative and informed analysis of key issues in international migration, including its crucial significance far beyond the more traditional questions of immigrant settlement and incorporation in particular countries.

The last three decades have seen the rapid increase and diversification in the types of international migration, and this handbook has been created to meet the need among researchers, policy makers and commentators for a definitive publication which provides analysis and insights into key themes and debates in the field.

CONTENTS
Part I: Interdisciplinary Perspectives on Migration / Part II: Historical and Contemporary Flows of Migrants / Part III: Theory, Policy and the Factors Affecting Incorporation / Part IV: Development and Governance of Migration

August 2019 • 592 pages
Cloth (97814412961752) • £220.00

AN INVITATION TO ENVIRONMENTAL SOCIOLOGY

Sixth Edition (International Student Edition)

Michael Mayerfeld Bell University of Wisconsin–Madison and Loka Louise Ashwood Auburn University

The sixth edition of An Invitation to Environmental Sociology continues to invite students to delve into this rapidly changing field. Written in a lively, engaging style, Michael Bell and new co-author Loka Ashwood cover the broad range of topics in environmental sociology with a personal passion rarely seen in sociology texts.

The book explores three different kinds of question about interactions between humans and the natural world: the material, the ideal, and the practical. To support this, the authors discuss the latest theoretical trends in environmental sociology, including metabolic rift, bio-politics, environmental flows, the Jevons paradox, disproportionality, degrowth, and participatory governance. It also develops the notion of normal environmentalism as a practical application of environmental sociology to real-world problems.

NEW EDITION!

**SOCIAL INEQUALITY**

Second Edition

Louise Warwick-Booth Leeds Beckett University

Now in an updated second edition, *Social Inequality* continues to be an essential guide to understanding social inequality and stratification, helping readers to understand what inequality is, how it is defined, explored and measured, and what the key social divisions are at both global and national level.

The book includes updated coverage of sexuality and transgender issues, enhanced discussion of migration and asylum seeking, and further coverage of a global context for social inequalities, policy, and justice. The book also features two new chapters: Youth and Age discusses age as a social construct and form of division, and also outlines the implications of ageing populations, ageism as a form of discrimination, and the different cultural understandings of age. Health and Disability defines health inequalities, outlines a range of global and national examples, and analyses the current thinkers on health inequalities and their proposed solutions.

CONTENTS

What Is Social Inequality? / Social Divisions and Inequality: Social Class / Social Divisions and Inequality: Gender / Social Divisions and Inequality: Ethnicity / Social Divisions and Inequality: Youth and Age / Social Divisions and Inequality: Health and Disability / Globalization and the Global Dimensions of Inequality / The Global Social Policy Arena And Inequality / Social Policy and Its Relationship to Inequality: Facilitator or Potential Solution? / Solutions to Inequality: How Do We Create a More Equal Global Society?

learn new ways
to examine the social world

**Online courses for social scientists**

Social science research is changing and we want to help you gain new skills in the age of digital research. SAGE Campus online courses have been created by social scientists for social scientists, and address key subjects such as:

- Introductory R and Python
- Text analysis
- How to manage data in R
- Presenting data in effective and impactful ways.

Explore the courses at [campus.sagepub.com](http://campus.sagepub.com)

What our learners say

“Helpful for beginners and novices alike.”

“I wish I had taken this course years ago when I started learning R.”

“An excellent course”
New Series

What Do We Know and What Should We Do About...?

The What Do We Know and What Should We Do About...? book series will offer up-to-date overviews of key issues of public concern based on social science research. Written by leading experts, each book will provide illuminating data-rich descriptions (what do we know?) and bold, prescriptive proposals (what should we do?). The books are intended to spark informed, educated debate, and provide readers with a quick and authoritative understanding of topics that are often misrepresented or simplified in the mainstream media.

NEW EDITION!

CYBERCRIME AND SOCIETY
Third Edition
Majid Yar Lancaster University and Kevin F. Steinmetz Kansas State University

The third edition of Cybercrime and Society provides readers with expert analysis on the most important cybercrime issues affecting modern society. The book has undergone extensive updates and expands on the topics addressed in the 2013 edition, with updated analysis and contemporary case studies on subjects such as: computer hacking, cyberterrorism, hate speech, internet pornography, child sex abuse, and policing the internet.

New author Kevin Steinmetz brings further expertise to the book, including an in-depth insight into computer hacking. The third edition also includes two new chapters: “Researching and Theorizing Cybercrime” explains how criminological theories have been applied to various cybercrime issues, and also highlights the challenges facing the academic study of cybercrime. “Looking toward the Future of Cybercrime” examines the implications for future cybercrimes, including biological implants, cloud-computing, state-sponsored hacking and propaganda, and the effects online regulation would have on civil liberties.

CONTENTS
Cybercrime and the Internet: An Introduction / Researching and Theorizing Cybercrime / Hackers, Crackers and Viral Coders / Political Hacking: From Hacktivism to Cyberterrorism / Virtual ‘Pirates’: Intellectual Property Theft Online / Cyber-Frauds, Scams and Cons / Illegal, Harmful and Offensive Content Online: From Hate Speech to ‘the Dangers’ of Pornography / Child Pornography and Child Sex Abuse Imagery / The Victimization of Individuals Online: Cyberstalking and Paedophilia / Policing the Internet / Cybercrimes and Cyberliberties: Surveillance, Privacy and Crime Control

INVESTIGATING THE SOCIAL WORLD
The Process and Practice of Research
Ninth Edition (International Student Edition)
Russell K. Schutt University of Massachusetts

With updated coverage and features, the ninth edition of Investigating the Social World uses numerous examples and hands-on exercises to help readers understand research methods as an integrated whole.

March 2018 • 728 pages
Paper (9781506390741) • £99.00

PROGRAMMING EXPERIMENTS IN PYTHON
Jonathan Peirce University of Nottingham, Jeremy R. Gray and Michael MacAskill

Read together with Building Experiments in PsychoPy, this text is designed to support students who are familiar with PsychoPy and who want to progress into programming in the original software package Python (on which PsychoPy is built).

December 2019 • 297 pages
Cloth (9781473991408) • £110.00
Paper (9781473991415) • £36.99

QUANTITATIVE SOCIAL SCIENCE DATA WITH R
An Introduction
Brian J. Fogarty

Relevant, engaging, and packed with student-focused learning features, this book provides the basic step-by-step introduction to quantitative research and data every student needs.

November 2018 • 328 pages
Cloth (9781526441490) • £90.00
Paper (9781526441506) • £32.99
AN INTRODUCTION TO R FOR SPATIAL ANALYSIS AND MAPPING

Second Edition

Chris Brunsdon National University of Ireland and Lex Comber University of Leeds

This is a new edition of an accessible and student-friendly ‘how to’ for anyone using R for the first time, ideal for use in spatial statistical analysis, geocomputation and digital mapping.

SOCIAL RESEARCH METHODS

Qualitative, Quantitative and Mixed Methods Approaches

Third Edition

Sigmund Grønmo University of Bergen

With extensive visualizations, overviews, examples, exercises, and other learning features, this book begins with how to understand the role of good questions in underpinning good research designs and how social research can be framed as asking and answering questions.

AN INTRODUCTION TO QUALITATIVE RESEARCH

Sixth Edition

Uwe Flick Free University, Berlin

The definitive guide to the full qualitative research process, from design to dissemination, this is everything you need to understand how good quality research is produced, and how to find, use and enrich your own work with it.

RESEARCH METHODOLOGY

A Step-by-Step Guide for Beginners

Fifth Edition

Ranjit Kumar University of Western Australia

Eight steps, two pathways, one book. The Fifth Edition of the bestseller Research Methodology has reimagined, redesigned, and fully renovated how a textbook can help students achieve success in their methods course or research project.

DOING DIGITAL METHODS

From building a URL list to discovering internet censorship, to making Twitter API outputs tell stories, Doing Digital Methods teaches the reader how to use digital devices, search engines and social media platforms to study some of the most urgent social issues of our time.

DATA VISUALISATION

A Handbook for Data Driven Design

Second Edition (Revised Edition)

Andy Kirk Freelance data visualisation specialist and trainer

With over 200 images and extensive how-to and how-not-to examples, the new edition of the book The Financial Times voted one of the ‘six best books for data geeks’ has everything students and scholars need to understand and create effective data visualisations.

RESEARCH METHODS IN SOCIOLOGY

ORDER TODAY
SOCIAL MEDIA FOR ACADEMICS

Second Edition

Mark Carrigan Digital Engagement Fellow

A practical book which provides clear guidance on effectively and intelligently using social media for academic purposes across disciplines, from publicising your work and building networks to engaging the public with your research.

September 2019 • 256 pages
Cloth (9781526459114) • £70.00
Paper (9781526459121) • £23.99

CRITICAL THINKING

Your Guide to Effective Argument, Successful Analysis and Independent Study

Tom Chatfield

Your secret weapon to teaching critical thinking! This engaging toolkit walks students through what critical thinking is: how good arguments work, what ‘evidence’ is, and what thinking and writing skills they need to demonstrate in their essays and coursework - and beyond.

2017 • 328 pages
Cloth (9781473947139) • £60.00
Paper (9781473947146) • £16.99

QUALITATIVE DATA ANALYSIS WITH NVIVO

Third Edition

Kristi Jackson Queri, Inc., Colorado and Patricia Bazeley
Western Sydney University

Drawing on their wealth of expertise, the authors offer detailed, practical advice that relates to students’ own experience and research projects using real-world examples and case studies.

April 2019 • 354 pages
Cloth (9781526449931) • £90.00
Paper (9781526449948) • £31.99

BUILD THE SKILLS AND HABITS FOR CRITICAL THINKING

This six-unit course teaches students how to manage their time and attention, build reasoning, argument and analysis skills, improve their planning, research and writing, and boost their information literacy.

☑️ Saves time: VLE compatible, the hard work has been done – simply embed and assign.

☑️ Flexible format: you choose how to deliver, as full modules or individual topics.

☑️ Embeds learning by doing: interactive quizzes and exercises put skills straight into practice.

☑️ Designed to engage: striking visuals capture students’ attention and enable learning.
