

The learner's difficulties we have all noticed are		Our hypothesis about why the learners are experiencing these difficulties is
What we plan to try out to address these issues		
Who will do it?	By when?	How will we know when it is done, what is our target?
What we found out, what worked, what didn't work, what barriers did we encounter?		
What we recommend as a result of this investigation	How will we share this with colleagues?
