

# X-ray Eyes

Use your x-ray eyes to see beneath the skin!

How do you know when someone is feeling angry? What do they look like?  
How do they sound? Draw and label a picture of an angry person.

On the other side of the sheet draw and/or write how you know when the following are angry:

- (a) your teacher
- (b) your friend
- (c) your parent/carer

**Think!** What can you do to help them?
