The Journal of Clinical Urology, an official publication of the British Association of Urological Surgeons (BAUS) is a clinically orientated journal of urology with an emphasis on papers originating from UK-based practice. To reflect recent major changes in the field of urology, in particular the increasing importance of non-surgical management, considerable input is expected from medical urology as well as from the more surgically focused aspects of the specialty.

The journal covers the whole scope of urology in five sections to align it with the BAUS specialist sections: oncology, endourology, female neurological and urodynamc urology, andrology and genito-urethral surgery and academic/basic science. It published high-quality original research, commissioned reviews, comment articles and relevant case reports, with the overall aim of being readable, educational and relevant.

Readership profile: consultant and trainee urologists, specialists in fields allied to urology, including uro-radiology, uro-oncology, genito-urinary medicine and nursing.
**Other Promotional Opportunities**

**Belly band:** A belly band is an advertisement that wraps around the entire journal. This is an exclusive way to place your message front and centre with each reader. Belly bands allow your message to be the very first one seen by the readers.

**Inserts:** Bound inserts, loose inserts, gatefolds, tip-ins and die cuts are available. A sample must be submitted to the publisher for approval.

**Outserts (product samples, brochures):** Be the first advertiser to be seen by readers with your promotional item or product sample mailed within the polybag of each issue, outside of the journal. This is an exclusive opportunity — only one advertising outsert is permitted per issue.
